

Multi-Space Payment Terminal

The MS3™ is the latest generation of IPS Pay Station solutions. Featuring a vibrant full colour display, optional touchscreen, coupons, multilanguage support and intuitive interface, the MS3™ provides the most convenient customer experience of any Pay Station on the market. Configurations and realtime parking data are accessed via the fully integrated, web based Data Management System (DMS).

Features include:

- Multi-language options.
- Availability in Pay By Plate and Pay and Display.
- High grade corrosion resistant cabinet with weather and graffiti resistant powder coating providing maximum longevity.
- High Resolution Colour LCD Display & Optional Touchscreen
- Cashbox housed in vault with multi point & high security locking system.
- Powered by environmentally friendly solar panel and rechargeable combination battery system.
- 4G Wireless/Ethernet communications to DMS (Data Management System), no additional communications hardware or software required.
- Open interface for third-party application integration, such as enforcement, mobile payment and more.
- Convenient coupon Programme enables businesses to offer parking discounts and validation codes to their customers.
- Electronic locking optional extra available.
